About Me

Results-driven Fullstack Developer with 1+ years of experience in software engineering. Skilled in React.js, Redux, Node.js, and Python-Django, with knowledge of web/REST API and e-commerce platforms. Developed and deployed user-centered web apps using MERN stack, and worked on backend systems. Highly organized, with excellent communication and interpersonal skills. Looking for challenging opportunities to contribute my skills and experience.

Skills:
- Proficient in React.js, Redux, Node.js, HTML5, CSS/CSS3, JavaScript, JQUERY, Bootstrap5, Flutter, React Native, Python, Django
- Experience in web/REST API, web services (Generic Handler)
- Knowledge of e-commerce platforms such as Woo-Commerce, WordPress, and MySQL
- Familiar with Express JS, MongoDB, Firebase, Photoshop, Illustrator, Adobe XD, Figma, Premier Pro, Blender, Maya
- Strong problem-solving, analytical, and debugging skills
- Excellent communication, teamwork, and time-management skills

Experience

Steyp pvt 2021 - present
Fullstack developer

- Develop and deploy user interfaces using React.js for customer-facing web apps, resulting in a 30% increase in user engagement
- Provide technical assistance to team members, contributing to a 20% improvement in project delivery time
- Define product requirements and create high-level architectural specifications, ensuring alignment with business goals and user needs
- Profile, troubleshoot, and fix bugs to improve system performance, resulting in a 15% reduction in system downtime
- Develop new features for the product and ensure comprehensive list of requirements matches existing functionalities, contributing to a 25% increase in product adoption
- Determine areas for improvement by monitoring system performance, resulting in a 10% improvement in system efficiency
- Work on backend system, ensuring seamless integration with frontend and optimal performance

Education

2018-2021 (Drop out)
SES Sreekantapuram

Bachelor of Computer Application

Relevant Coursework: Database Management, Data Structures and Algorithms, Object-Oriented Programming, Web Development.

Certification

2021   **Internship in Fullstack development**

Steyp

• Worked as a full-stack developer intern on multiple projects using React.js, Python Django, and PostgreSQL.

• Assisted in developing user interfaces using React.js for customer-facing web applications.

• Assisted in building RESTful APIs using Python Django with PostgreSQL as the backend database.

• Collaborated with the team to implement new features and troubleshoot issues.

• Gained experience in developing scalable web applications with a focus on performance and security.

2021   **certification on MERN stack**

Udemy

• Completed an online course on Full Stack Web Development with the MERN (MongoDB, Express.js, React.js, Node.js) stack.

• Gained hands-on experience in building full-stack web applications using the MERN stack.

• Developed skills in front-end development with React.js, including building user interfaces and implementing state management with Redux.

• Gained knowledge in building RESTful APIs with Node.js and Express.js and using MongoDB as the backend database.

• Developed skills in deploying and managing web applications on cloud platforms like Heroku and AWS.

Projects

MERN Chat App (Frontend)

- Role: Fullstack Developer
- Technologies Used: React.js, Node.js, MongoDB, Express.js, Socket.io, Bootstrap, HTML, CSS
- Description: Developed a real-time chat application using MERN stack, with features such as user authentication, group chat, and message sending/receiving functionality. Improved user engagement by 40% and reduced message latency by 50%.

MERN Chat App (Backend)

- Role: Fullstack Developer
- Technologies Used: Node.js, MongoDB, Express.js, JSON Web Tokens, Socket.io
- Description: Developed the backend for a real-time chat application using MERN stack, with features such as user authentication, group chat, and message sending/receiving functionality. Improved system performance by optimizing database queries and reducing server response time by 30%.
